EXPERIENCE

COALA ASSOCIATION E.V. | GOOGLE SUMMER OF CODE MENTOR

April 2019 - Present | Remote

- Worked as a Mentor for the projects Improve Generic Bear Quality and Next Generation Action System for coala.io, an open-source project.
- Participated in the code implementation, reviews and directly managed the students for their projects.

GOOGLE OPEN-SOURCE | GOOGLE CODE-IN STUDENT

Oct 2018 - Dec 2018 | Remote

- Code-in student for coala.io open-source project.
- One of the top ten contributors for coala projects.
- Fixed bugs and CI for majority of the projects.

CODECHEF | PROBLEM SETTER

Aug 2018 - Present | Remote

- Working as a problem setter on CodeChef online judge.

COALA ASSOCIATION E.V. | CORE DEVELOPER

Jan 2019 - Present | Remote

- One of the core developer for coala open-source project.

CODEMUTE ORGANIZATION | FOUNDER

July 2019 - Present | Github

- Founder of codemute, an open-source organization aimed to build and maintain software projects across various domains.

PROJECTS

CMBOT | Github

May 2019 - Present

cmbot is the new bot used to manage the codemute organization. The bot can be deployed over multiple instant messaging services like Gitter, Zulip, Slack, etc. The bot interacts with Github for the users managing their instructions. The bot is powered by errbot and PyGithub and is completely open-source.

LEARN-GIT | Github

May 2019 - Present

The project is relatively new and aims to solve the issues the new git users have with the working of the git commands, their uses and the correct way of using them. The project includes instructables along with pictures and videos for clear understanding. Currently, the project is in WIP status.
